

Paul Revere Charter Middle School and Pali Institute Partnership

Outdoor Education, Science and Leadership Program

Don't miss out – limited number of students can attend each trip!!

The outdoor education program is a unique opportunity to bring classroom science to life with hands-on, field – based activities in the beautiful San Bernardino mountains. Pali Institute has partnered with Revere Charter M.S. to create a 3 year outdoor education, science and leadership program, run by degreed and trained staff, along with accredited teachers, and a full-time nurse. The site offers great food, beautiful scenery, and warm cabins. Pali Institute is the premier location for a fully-supervised, high-quality learning and camping experience. It is accredited by the Western Association of Schools and Colleges (WASC) and the Association for Experimental Education (AEE).

During the 3 day/2 night trip, students will engage in a progressive experience during their middle school career with traditional outdoor education classes, as well as a specially designed leadership track. Each trip is uniquely designed to align the activities to the trip's theme (listed below). Throughout the three year program, students will participate in: Aerodynamics, Animal Survivor, Archery, Art & Nature, Astronomy, Balloon Rescue, Building Support, Culture Shock, Energy Dilemma, Engineering, Geology, High Ropes, High Ropes Belay Training, Kraken Squid Dissection, Night Hike, Outdoor Skills, Owl Pellet Dissection, Team Building, Forest Ecology, Quad Zip, Where Do You Stand?, and many more.

Leadership Seminar - creating a purposeful progression throughout the three trips
6th Grade: Community Building and Goal Setting
